RE: Alterations & Additions to  
Central Bucks West High School

Dear Gus:

On behalf of the Central Bucks School District I would like to commend Adams-Bickel Associates on the outstanding effort put forth on the Central Bucks West High School project. As you are aware, this project had a considerable number of obstacles to overcome ranging from the difficult site constraints to the intricacies of merging new construction with existing. Adams-Bickel Associates skillfully coordinated the work with the other prime contractors, manned the project with quality employees and subcontractors, and completed the work on time and within the budget. The District was fortunate to have a general contractor with your understanding and sincere concern to minimize the impact of construction on the educational activities ongoing in the school. It was a pleasure to work with a firm that promptly addressed questions, consistently met their obligations, and always dealt with the School District openly and fairly.

The completed project is a beautiful, distinctive addition to the original building and an asset to the community. Adams-Bickel Associates should be proud of their significant part in this accomplishment.

Sincerely,

Kenneth A. Rodemer, AIA  
Assistant Director of Operations
